

T 5222 EN

Type 5207-0060 Fast-response Temperature Sensor

with Pt 1000 resistor

Application

Fast-responding temperature sensors to measure rapid temperature changes in heat exchangers.

Special features

- Optimal step response featuring a half-value time $t_{0,5}$ of approx. 1 second and a 90 % time $t_{0,9}$ of approx. 3 seconds measured in flowing water (0.4 m/s)
- Minimum thermal resistance and low heat capacity
- Easy installation
- The use of a special sensor pocket provides optimal positioning of the temperature sensor at the heat exchanger

Principle of operation

The Type 5207-0060 Temperature Sensor has been especially designed for domestic hot water heating in instantaneous heating systems. It is ideally used with TROVIS 57xx Electric Actuators with Process Controller.

Fast-responding Pt 1000 temperature sensors are used in compact heat exchangers which only have a fairly small mass with a low heat storage capacity. As a result, the temperature can change rapidly (basic values according to Class B of EN 60751).

Three times characterize the step response:

- **Half-value time $t_{0,5}$** indicates the time taken for the measurement to reach 50 % of the final value
- **90 % time $t_{0,9}$** indicates the time taken to reach 90 % of the final value
- **Time τ** , indicates the time taken to reach 63.2 % of the final value

Table 1: Technical data

Type 5207-0060 Temperature Sensor	
Measuring element	1x Pt 1000 (EN 60751, Class B) Two-wire circuit
Perm. medium temperature	-5 to +90 °C
Perm. ambient temperature	-5 to +80 °C
Time constants (medium: water 0.4 m/s)	$t_{0.5} \leq 1$ second $t_{0.9} \leq 3$ seconds
Pressure rating	PN 16
Degree of protection	IP 54 according to EN 60529
Immersion depth	52 mm
Mechanical connection	Thread G 1/4
Electrical connection	Free cable end fitted with wire end ferrules with plastic sleeves
Connecting cable length	2000 mm
Sensor pocket	
Mechanical connection	Male thread G 3/4 Female thread G 1/4 Coupling nut G 3/4 or G 1
Pressure rating	PN 16

Table 2: Materials

Type 5207-0060 Temperature Sensor	
Mechanical connection	Brass (2.0401.20)
Protective tubing	Inconel® 600 (2.4816)
Connecting cable	PVC
Sensor pocket	Red brass CC491K (Rg5)

Dimensions

Fig. 4: Dimensions in mm

Accessories

For all versions	Ordering number
Sensor pocket G 3/4 with coupling nut	1400-9249
Sensor pocket G 1 with coupling nut	1400-9252

Disposal

SAMSON is a producer registered at the following European institution
▶ <https://www.ewrn.org/national-registers/national-registers>.
WEEE reg. no.:
DE 62194439/FR 025665

- Observe local, national and international refuse regulations.
- Do not dispose of components, lubricants and hazardous substances together with your other household waste.

i Note

We can provide you with a recycling passport according to PAS 1049 on request. Simply e-mail us at aftersaleservice@samsongroup.com giving details of your company address.

💡 Tip

On request, we can appoint a service provider to dismantle and recycle the product.
