

Types 5207 to 5277 Temperature Sensors

with Pt 1000 resistors

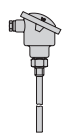

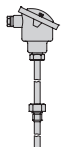

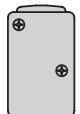

Application

Sensors for measuring temperatures in HVAC systems.
Versions with Pt 1000 resistors. Basic values according to
Class B of DIN EN 60751.

¹⁾ Accessories for Types 5277-2/-3/-5

- Brass thermowell, G ½, PN 16
 Immersion length 80 mm Order no. 1099-0807
 Immersion length 160 mm Order no. 8525-5005
- CrNiMo steel thermowell, G ½, PN 40
 Immersion length 80 mm Order no. 1099-0805
 Immersion length 250 mm Order no. 1099-0806
 Immersion length 160 mm Order no. 8525-5011
- Mounting kit for contact sensor Order no. 8524-0020

Note

It is not necessary to calibrate the line with temperature sensors with Pt 1000 resistors. In cases where the length of line between sensor and controller exceeds 100 m, the cross-section of the wire must be at least 1.5 mm². The connecting cable between temperature sensor and controller must be routed separately from live power cables.

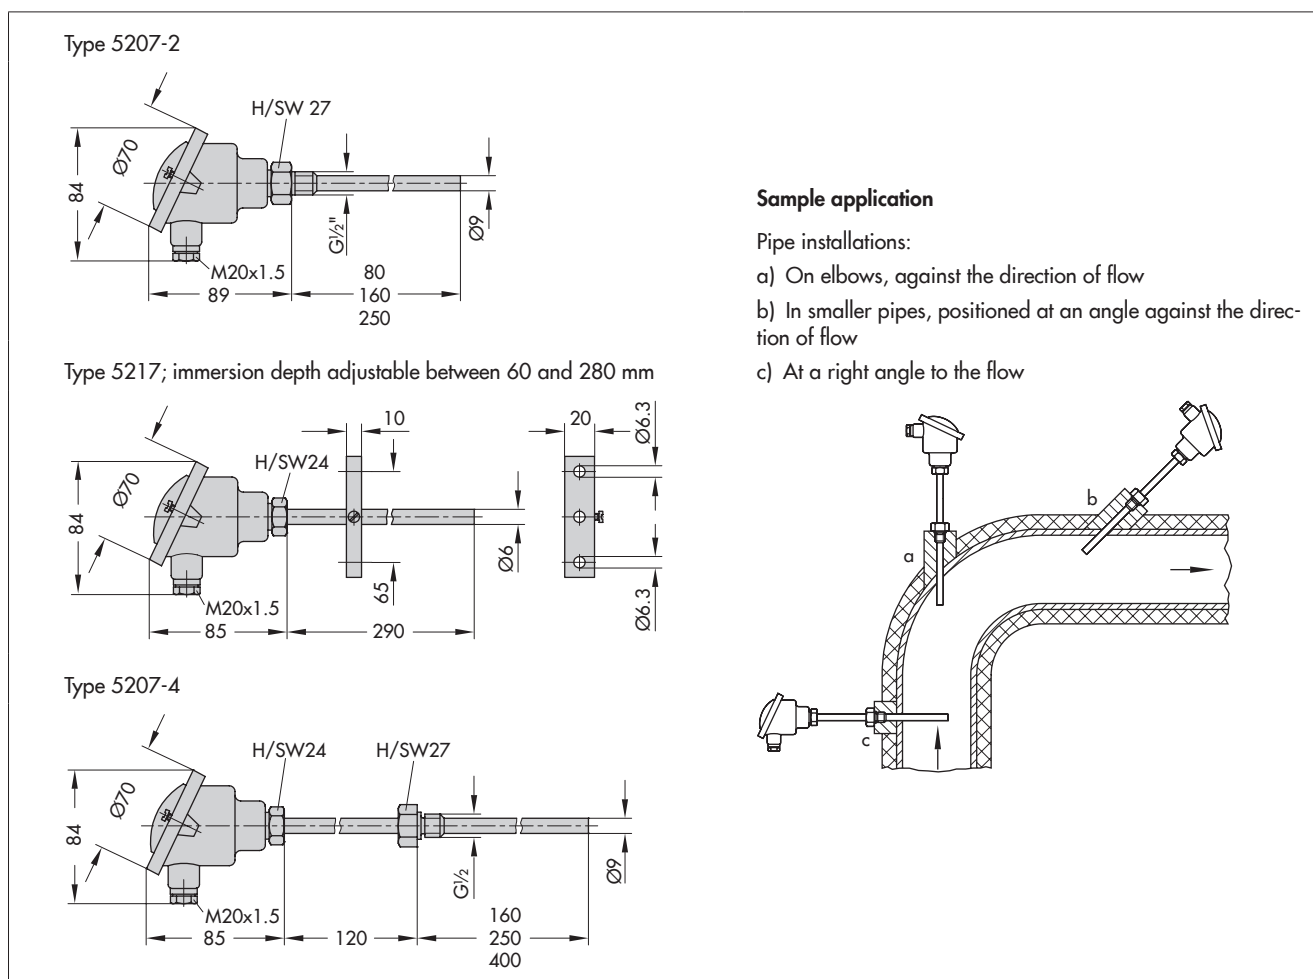

Type 5267 Contact Sensor suitable for pipes up to Ø 60 mm. On assembly, the supplied heat-conducting paste must be applied between the sensor (copper protective tube) and the pipe.

Terminals for sensors (Types 5227, 5257 and 5267) must have a maximum wire cross-section of 1.5 mm².

 Type 5277-3: l = 3 m, silicone connecting cable
 Type 5277-5: l = 5 m, silicone connecting cable

Bracket and cable tie in a mounting kit (order no. 8524-0020)

A mounting kit (order no. 8524-0020) is required if a Type 5277 Sensor is intended to be used as a contact sensor. The application range is between -40 and 105 °C (briefly up to 145 °C), the sensor is resistant against oil, fuel oil and grease. Apply heat-conducting paste (syringe) to the sensor. Clamp the sensor between the pipe and bracket. Fasten the sensor on a clean pipe using the cable tie.

Type 5257-5 and Type 5257-7

Remote control with room sensor for changing the room temperature set point, with heating program switch

Type 5257-5 Room Sensor

- ⌚ Continuous automatic operation
- ☾ Continuous night mode (reduced operation)
- ☀ Continuous day mode (rated operation)

Type 5257-7 Room Panel

- ☀ Continuous day mode (rated operation)
- ❄ Off/frost protection
- ☾ Continuous night mode (reduced operation)
